

More autistic kids in the United States are being diagnosed than ever before, due to improved testing and growing awareness in recent years. While real progress is being made to better identify autism, there is still a huge gap between understanding who is autistic, and providing the autistic community with the support and services they need to thrive.

For a child with autism, it is a daily struggle to grow up in a society that isn't designed for your way of learning, and living. Mastering essential life skills can be an enormous challenge. Finding any kind of social or educational environment that is welcoming, accommodating, and tailored to your unique support needs, is a rarity.

Together, the New Vista School and Spirit League are making a daily difference in the lives of these children by providing the right education and experiences that lead to full and meaningful lives.

- New Vista School provides a structured environment where students with autism and others with similar learning differences receive strong academics, social skills development, and vocational training. This integrated approach prepares them for independence, employment, and a successful adult life.
- Spirit League, a year-round, non-profit coed team sports organization, offers athletes with developmental disabilities, autism, and other neurodivergent conditions the opportunity to hit the ball fields and courts to develop their physical, emotional, and social skills.

You can directly support New Vista students and Spirit League athletes by taking part in the next annual Swing for Autism Golf Tournament on October 26, 2026, at the beautiful Aliso Viejo Country Club.

We'd love to see you hit the links and enjoy a lovely day with us out on the Jack Nicklaus-designed golf course. But please consider joining as a Swing for Autism Event Sponsor. You'll receive special recognition at the tournament, on the tournament website, and social media channels. Best of all, you'll be a significant contributor to providing autistic kids with the education, community, and life experiences they deserve, just like any child does.

An attached flyer describes the event, and a Sponsorship Registration Form explains the various levels of sponsorship. For additional information, please visit www.SwingforAutism.org.

Thank you very much for considering sponsoring this important event.

Sincerely,
William Bermingham
